
A TEENAGER RELAXING AT HOME...
...continued to spread to all countries. Further news concerning this mysterious epidemic...
According to a release by the ministry of health, a network of research teams are hard at work to find the source of this outbreak.
The symptoms are temporary, and include flash fevers as well as other symptoms that have not been confirmed, so to continue life as usual...
THEY SAY "TEMPORARY" SO LIGHTLY, EVEN THOUGH CLEARLY THE KEY SYMPTOM IS...
